15% Developer Bonus

The Maryland Thoroughbred Horsemen's Association and The Maryland Jockey Club have announced changes to the Maryland-Bred Owner Bonus Program to accommodate a new Developer Bonus Program.

A 15% bonus will be paid to the developer—the owner or owners of a horse when it makes its first career start—for any Maryland-bred that finishes first, second or third in an open overnight race at a Maryland track. The Developer Bonus only applies to a horse still owned continuously by the original owner of the horse as of Jan. 22, 2021, or the owner of a horse that makes its first career start after January 22, 2021.

The Developer Bonus is not part of the purse and will not be included in a horse's earnings. The bonuses will be paid monthly once the testing of samples is completed and the races are released by the stewards. It will be the responsibility of the developer to provide the Horsemen's Bookkeeper with a W-9 if they do not already have a horsemen's account.

A 15% Maryland-Bred Owner Bonus will continue to be paid to all Maryland-bred horses that finish first, second or third in an open overnight race in Maryland and will continue to be part of the purse.

It is designed to provide additional incentives for owners to support the Maryland racing program through the development of weanlings, yearlings and 2-year-olds, thus increasing the number of horses available to fill races.

HISA OPERATIONS BULLETIN

Required Tests and Vaccines:

Certificate of Veterinary Inspection
Coggins Test
Encephalitides Vaccine
Rabies Vaccine
Tetanus Vaccine
Influenza Vaccine
Rhinopneumonitis Vaccine

Exception

If a health certificate is submitted for a horse at a licensed racetrack facility or training center and is then transported directly to another licensed facility within the same state, another health certificate is not required to be provided. However, if the horse is transported from a licensed racetrack or training center to an unlicensed facility or farm between races or leaves the state between races, the health certificate must be presented.

Regulations for Each Test and Vaccine

HISA Rule 2143 establishes the requirements for each test and vaccine. In order to race, these requirements must be met. To ensure your horse can race, make sure your horse's negative Coggins test and necessary vaccines are up to date, as required by HISA Rule 2143.

If a trainer has in the trainer's charge a horse whose name appears on a veterinarian's, starter's, steward's, or judge's list or any other list of horses ineligible to start, commonly known as a “Barred List”, at a race track outside this State, the trainer shall report the name of the horse and the fact that the horse has been barred to the Racing Secretary, as well as to the stewards or judges, at the meeting within the State at which the trainer proposes to enter the horse to race.

Claiming. (.09.10.01.07)(A). Except as provided in §A-1 of this regulation, in claiming races a horse is subject to claim for its entered price by: (1) through a licensed owner; (2) An individual authorized to claim in behalf of a registered stable or other multiple ownership entity; or (3) A registered authorized agent in behalf of a person listed in §A(1) or (2) of this regulation. (2) A licensed owner, registered stable, or other multiple ownership entity that does not have a licensed trainer with assigned stabling on grounds under the jurisdiction of the Commission is eligible to claim only to replace a horse lost to a claim at a track under the jurisdiction of the Commission. **(C.) A person may not be eligible to claim more than one horse in a race, either directly or through another.** **(D).** A valid claim shall: (1) Be in writing on a form provided by the association; (2) Be in the name of a person qualified to claim a horse; (3) Be signed by the person, or the agent of the person, in whose name the claim is made; (4) Contain the name of the horse to be claimed in a manner sufficient to avoid confusion with the name of another horse in the race; **(5) Name the trainer who will assume control and responsibility of the horse to be claimed;** (6) Be for the amount printed in the program as the claiming price of the horse; (7) Be enclosed in a sealed envelope, provided by the association, which shall contain no identifying marks on its outside other than the number of the race in which the claimed horse is to participate; (8) Be deposited in the time lock box of the claims clerk at least 10 minutes before the post time for the race in which the claimed horse is to participate; (9) Be supported by funds on deposit at the association in the name of the claimant in an amount sufficient to cover the cost of the claim and any taxes to which the claim may be subject. **(E).** After the deadline for entering a claim has passed, the stewards or designee shall: (1) Open the claim envelope for the race; (2) After ascertaining compliance with §§D and E of this regulation, if there is more than one valid claim for a horse, conduct a public drawing to determine the successful claimant; and (3) Notify the Racing Secretary of the identity of the successful claimant and the horse claimed. **(F).** The stewards may require a person who submits a claim for a horse in a claiming race to make an affidavit declaring that the person is claiming the horse for

the person's own account or for the account of another as the registered authorized agent for that person. **(G).** If the stewards determine that a horse was improperly entered in a claiming race, they may; (1) Void a claim of the horse; (2) Order the claiming monies, including all taxes, refunded to the claimant through the Clerk of the Course, the horsemen's bookkeeper, or otherwise; and (3) Order the return of the horse to the original owner.

(.09.10.01.07)(H). Except as provided in §H-1 of this regulation, unless there is a violation of this regulation by the claimant, or the stewards determine that a horse was improperly entered: (1) The claim is irrevocable and the claimed horse becomes the property of the successful claimant from the time the horse is a starter; and (2) A purse earned in the race from which a horse is claimed is the property of the owner from whom the horse is claimed.

(.09.10.01.07)(H-1) A claim shall be voided if a horse is a starter and the horse: (1) Dies on the racetrack; or (2) Suffers an injury which requires the euthanasia of the horse, as determined by a State veterinarian, while the horse is on the racetrack.

(.09.10.01.07)(H-2) A claim is voidable at the sole discretion of the new owner, for a period of 1 hour after the race is made official, for any horse that: (1) Is vanned off the track after the race at the discretion of the State Veterinarian; or (2) Is sent to the detention barn and observed to be lame by the State Veterinarian; or (3) is declared lame by vet in claiming barn.

Notice - There are two ways to void a claim in the above circumstance:

1. An owner, his trainer or authorized representative can elect to void the claim by checking a box for that purpose on the new Maryland Claim Form. If you have no intention of keeping a horse that is vanned off the racetrack you should check this box when you submit the claim.
2. There will be a new Void The Claim Form available in the racing office. If you have claimed a horse that is vanned off the racetrack at the direction of the State Veterinarian and did not elect to automatically void the claim on the Claim Form and you do not want the horse, you will have 1 hour after the race is declared official to file with the racing office a completed Void The Claim Form. If timely filed and approved by the Stewards, the claim will be voided.

For the claim of any horse vanned off the racetrack during the running of a race at the direction of the State veterinarian that does not satisfy either of the above requirements, ownership of the horse passes to the claimant.

(.09.10.01.07)(I). After the race has been run, the successful claimant shall present verification of the claim by the Racing Secretary to the person accompanying the claimed horse.

(.09.10.01.07)(K). If a trainer refuses to deliver a horse that has been claimed to the successful claimant when verification of the claim is presented in accordance with §J of this regulation, the: (1) Trainer is subject to sanctions; and (2) Claimed horse shall be disqualified from participating in further racing until delivery is made.

(.09.10.01.07)(L). In claiming races, the following acts, or an attempt to commit the following acts, are prohibited: (1) An agreement to claim, or not to claim, a horse belonging to another owner; (2) Preventing an owner from: (a) Claiming a horse, or (b) Legitimately running a horse in a race; (3) The claiming of a horse by: (a) The owner of the horse, (b) Another person for the account of the owner of the horse, or (c) One owner from another if the trainer of the horse to be claimed trains a horse owned by the entity making the claim; and (a) A

(.09.10.01.07)(M). If a horse is claimed: (1) For a period of 30 days from the day of the claim, the horse may start in a claiming race only for a claiming price at 25% more than the claiming price for which it was claimed; (2) The horse may not be sold or transferred to anyone, wholly or in part, for a period of 30 days from the day of the claim, except: (a) In a claiming race, or (b) When the horse is entered and starts for a claiming price which would cause the horse to become ineligible to be entered at Laurel or Pimlico; (3) Unless reclaimed, the horse may not remain in the same stable or under the control of management of its former owner or trainer for a period of 30 days from the day of the claim; (4) It may not race outside of Maryland for a period of 60 days from the day of the claim except: (a) To participate in a stake; (b) To participate in a claiming race for a price which would cause the horse to become ineligible to be entered at Laurel or Pimlico; or (c) During the scheduled absence of a live thoroughbred race meet in Maryland for at least 15 days.

(.09.10.01.07)(N). For the purposes of §M of this regulation, the day of the claim does not count in computing the time restrictions.

(.09.10.01.07)(O). The stewards shall report action taken by them, in reference to a violation of this regulation, to the Commission which may, in its discretion, take any further action it considers appropriate.

(.09.10.01.07)(P). A horse which was claimed in another state and entered to race in this State remains subject to the conditions of the claiming regulation in the state where the claim was made until those conditions expire.

(.09.10.01.07)(Q). Notwithstanding information printed in the program or other racing publications, the claimant is solely responsible for determining the horse's: (1) Age; (2) Breeding; (3) Physical condition; (4) Racing record; and (5) Sex.

(.09.10.03.08)(C). If a horse has been observed by a Commission veterinarian to have bled from at least one nostril during the running of a race or workout, either on the racing strip or in the barn area, that horse may not be permitted to race for a period of 14 days.

(.09.10.03.08)(D). If a horse has been observed to have bled as described under §C of this regulation within 365 days of the first occurrence, that horse: (1) May not race for 30 days after the first reoccurrence; (2) May not race for 180 days after the second reoccurrence; and (3) Is banned from racing forever after the third reoccurrence.

(.09.10.03.08)(E). For the purpose of counting the number of days a horse is not permitted to race in this State under this section, the day the horse bled is the first day, and the horse shall be permitted to race in the State when the last day has expired.

(.09.10.03.08)(G). Racing Off of Lasix. (1) A horse on the Lasix Program that races without Lasix in any jurisdiction which permits the use of Lasix may not be eligible for its use for a period of 60 days. (2) To become eligible after 60 days: (a) The horse shall have been observed to have bled by a Commission veterinarian either: (i) Externally; or (ii) By endoscopic examination.

(.09.10.03.08)(H). Program Notice. (1) Of the horses scheduled to race, the official program shall denote the horses which have been administered: (a) Lasix; (b) Lasix for the first time (2) In the official program contains past performance lines, each past performance line shall indicate if the horse was administered; (a) Lasix.

The written acknowledgment of both parties is necessary to prove otherwise.

(.09.10.01.20)(B). A horse may not be allowed to race unless it has been lip tattooed by the Thoroughbred Racing Protective Bureau (TRPB). MEDICATION REFORMS EFFECTIVE JANUARY 1, 2014

The Mid Atlantic racing states have joined together to implement a uniform medication and drug testing program.

The following new rules and procedures are effective as of January 1, 2014 in Maryland.

1. Salix® (furosemide), pursuant to Commission supervised administration, is the only medication that can be administered to a horse within 24 hours of its race.

2. The administration of any adjunct medication within 24 hours of a horse's race is strictly forbidden.

3. There is a new medication category called **Controlled Therapeutic Substances**. This category contains a list of 24 therapeutic medications that have been recognized as necessary in the routing treatment of illness or injury in the horse. Withdrawal time guidance and uniform laboratory detection thresholds for these medications are being provided as a safe harbor for horsemen. You are strongly encouraged to restrict your use of medications to those on the Controlled Therapeutic Substances list, which will be amended from time-to-time.

6.(1) As of March 1, clenbuterol will not have a permissive threshold. The presence of the substance in a blood or urine sample—at any detectable level—will constitute a violation. A horse found with clenbuterol in its system will be disqualified and the trainer subject to disciplinary action.

The Racing Medication and Testing Consortium has recommended that clenbuterol not be administered to a horse within 28 days of a race at a minimum.

Because clenbuterol is recognized as a therapeutic medication, the regulation allows for its use if the following conditions are met:

a. The prescription for clenbuterol is made for a specific horse based upon a specific diagnosis. The prescription and volume dispensed cannot exceed a treatment period of 30 days.

b. The veterinarian must provide a copy of the prescription and diagnosis to the Equine Medical Director for review and approval. The horse may not receive clenbuterol before this approval is issued.

c. Trainers must make daily notification to the official veterinarian of horse(s) in their custody having been administered clenbuterol. Notification shall be made on a form and by a deadline designated by the Maryland Racing Commission.

d. A horse administered clenbuterol shall be placed on the official veterinarian's list. The horse must meet all conditions for removal from the list including a timed workout and blood and urine sampling. Both samples must have no detectable clenbuterol.

e. A horse may not enter to race until it has completed all the requirements

in subdivision (d).

6.(2) If a clenbuterol is detected in a horse's post-race or out-of-competition sample and appropriate notification as outlined in subdivision 1(a) or (b) was not completed, the horse shall immediately be placed on the official veterinarian's list pending the outcome of an investigation. The horse shall be required to meet all conditions for removal from the veterinarian's list outlined in subdivision 1(d), above.

7. No intra-articular injection may be administered to a horse within 14 days of its next race. Administration of a total dose of 100 mg methylprednisolone acetate (Depo Medrol®) in one articular space will take approximately 21 days for the drug to fall below the testing detection level in plasma. For this and other reasons, **we strongly caution against the use of Depo Medrol® in the racing horse for at least 21 days prior to its race.**

8. During 2014, a new penalty system designed to identify and penalize those who incur multiple medication violations will be implemented. Each medication violation will incur points. Medication violations in the Controlled Therapeutic Substances category will be identified as Controlled Therapeutic violations and not "positive tests" and these violations will have a lesser point value. Violations for drugs and medications not on the Controlled Therapeutic Substances list will incur double points. Trainers risk additional mandatory suspensions if they reach the points thresholds established under the model rule for multiple medication infractions.

THIRD PARTY LASIX ADMINISTRATION PROCEDURES

The administration of Salix® (furosemide), to a horse on race-day will be by a Maryland Racing Commission designated veterinarian and according to the following rules and procedures:

1. The only medication allowed to be administered to a horse within 24 hours of its race is Salix® (furosemide).

2. The administration of any adjunct medication within 24 hours of the horse's race is strictly forbidden.

3. The primary change from the current practice in the administration of Salix® to a horse is that a Commission designated veterinarian who does not practice on the grounds will be administering Salix®.

4. All horses shall be administered Salix® on the grounds of the operating racetrack in their assigned stall.

5. All horses declaring the use of Salix® must be on the grounds of the operating track at least 5 hours prior to post time for their race.

6. Trainers or their representative not requesting the use of Salix® shall declare their horse off of Salix® at the time of entry.

7. Trainers or their representative are responsible to contact and inform the

Salix® Clerk at the operating track the dosage of Salix® their horse is to receive.

8. The Salix® Clerk will prepare a list of all horses scheduled to receive Salix®, their dosage and their location at the operating racetrack.

MRC RULES

9. The Veterinarian designated to administer Salix® will identify the horse by its tattoo number, record the dosage and time of administration for each horse treated and make a written report to the Stewards and the State Veterinarian.

10. Trainers are responsible for having their representative present and available when the designated Veterinarian arrives to treat their horse.

11. If the Veterinarian designated to administer Salix® cannot locate a horse for treatment or the trainers representative, the Veterinarian will contact the stewards and relay the information.

12. Consistent with current practice, it is recommended that a horse receive Salix® 5 hours prior to its race, at a dosage between 2 cc's and 10 cc's. **Salix® will be administered IV only.**

13. Under no circumstance will Salix® be permitted to be administered to a horse within 4 hours of its race.

14. Consistent with current practice, a horse that is entered on Salix® and does not receive Salix® will not be permitted to run.

15. The State Veterinarian will continue to be responsible for determining a horses' eligibility for the use of Salix® and also obtaining and verifying the proper documentation for a first-time Salix® horse.

.10 Out-of-Competition Testing.

A. The Commission may, at a reasonable time on any date, take blood, urine, or other biologic samples from a horse to ensure compliance with applicable medication and anti-doping standards set forth by the Association of Racing Commissioners International, Inc., as such standards may be amended and updated from time to time. The Commission shall own such samples. This regulation authorizes only the collection and testing of samples and does not independently make impermissible the administration to or presence in any horse of any drug or other substance. A race day prohibition or restriction of a substance by the Commission's regulations is not applicable to an out-of-competition test, unless there is an attempt to race the horse in a manner that violates such regulations.

B. Horses Eligible for Testing.

(1) Any horse that has been engaging in activities related to competing in horse racing in the State may be tested. This includes, without limitation, any horses that are training outside the State to participate in racing in the State, and all horses that are training in the State, but excludes weanlings, yearlings, and horses no longer engaged in horse racing (e.g., retired broodmares).

(2) A horse is presumed eligible for out-of-competition testing if:

- (a) It is on the grounds at a racetrack or training center under the jurisdiction of the Commission;
- (b) It is under the care or control of a trainer licensed by the Commission;
- (c) It is owned by an owner licensed by the Commission;

- (d) It is entered or nominated to race at a premises licensed by the Commission;
- (e) It has raced within the previous 12 months at a premises licensed by the Commission;
- (f) It is nominated to a program based on racing in the State.

(3) The presumptions set forth in this regulation are conclusive in the absence of evidence that a horse is not engaged in activities related to competing in horse racing in the State.

C. Selection of Horses to Be Tested.

(1) Horses shall be selected for sampling by a Commission veterinarian, the Executive Director, an equine medical director, a steward, a presiding judge, or a designee of any of the foregoing.

(2) Horses may be selected to be tested at random, for cause, or as otherwise determined in the discretion of the Commission.

(3) Licensees of the Commission shall cooperate and comply fully with the provisions of this regulation.

(4) Individuals who apply for and are granted a trainer or owner license shall be deemed to have given their consent for access at such premises as their horse may be found for the purpose of Commission representatives collecting out-of-competition samples. Licensees shall take any steps necessary to authorize access by Commission representatives at such premises.

D. Collection of Samples.

(1) Samples shall be taken under the supervision and direction of a person who is employed or designated by the Commission. All blood samples shall be collected by a veterinarian licensed in the State, or by a veterinary technician who is acting under appropriate supervision of the State-licensed veterinarian.

(2) Upon request of a representative of the Commission, the trainer, owner, or their specified designee shall provide the location of their horses eligible for out-of-competition testing.

(3) The Commission or its designees are not required to provide advance notice before arriving at any location, whether or not licensed by the Commission, to collect samples.

(4) The trainer, owner, or their specified designee shall fully cooperate with the person who takes samples for the Commission, including, but not limited to:

- (a) Assisting in the immediate location and identification of the horse;
- (b) Making the horse available as soon as practical upon arrival of the person who is responsible for collecting the samples;

MRC RULES

(c) Providing a stall or other safe location to collect the samples;

(d) Assisting the person who is collecting samples in properly procuring the samples; and

(e) Witnessing the taking of samples including sealing of sample collection containers.

(5) The management and employees of a licensed racetrack or training facility at which a horse may be located shall cooperate fully with a person who is authorized to take samples. The person who collects samples for the Commission may require that the collection be done at a specified location on such premises.

(6) The Commission, if requested and in its sole discretion, may permit the trainer, owner, or their specified designee to present a horse that is located

in the jurisdiction, but not at a racetrack or training center licensed by the Commission, to be sampled at a time and location designated by the Commission.

E. The Commission may arrange for the sampling of an out-of-State horse by the Commission or the Commission's designee if the horse is located in the State. The Commission or its designee shall follow the relevant provisions of this regulation.

F. The test results shall be made available to the Commission, subject to any restrictions on public disclosure of test results that may apply to the Commission.

G. The Commission, if requested and in its sole discretion, may permit the trainer or owner instead to transport the horse into the State for sampling at a time and place designated by the Commission.

H. The individual who takes samples for the Commission shall provide identification and disclose the purpose of the sampling to the trainer or designated attendant of the horse.

I. An owner or trainer does not consent to a search of the premises by making a horse that is not located at a racetrack or training center available for sampling.

J. If the trainer or other custodian of a selected horse refuses or declines to make the horse available for sampling and the managing owner has previously provided the Commission with a means for the Commission to give immediate notification to the managing owner in such situation, then the Commission shall attempt to notify the managing owner and the eligibility of the horse shall be preserved if the managing owner is able to make the horse available for immediate sampling. The Commission is not required to make repeated attempts to notify the managing owner.

MRC RULES

K. The chain of custody record for the sample (including a split sample where appropriate) shall be maintained and made available to the trainer, owner, or their designee when a complaint results from an out-of-competition test.

L. The Commission may have out-of-competition samples tested to produce information that may enhance the ability of the Commission to enforce its medication and anti-doping

rules.

M. An out-of-competition sample that is found to contain a prohibited substance may be adjudicated in the same manner as a post-race sample that is found to contain a prohibited substance.

N. Split sample rules and procedures for post-race testing shall apply to out-of-competition testing.

O. The Commission may use any remaining sample for research and investigation.

P. Willful failure to make a horse available for sampling or other willfully deceptive acts or interference in the sampling process shall constitute a violation of the Commission's laws and regulations and may be subject to penalties available under the applicable laws and regulations.

Q. A selected horse that is presumed eligible for out-of-competition testing shall be placed on the Steward's list and will be ineligible to race in the jurisdiction for 180 days if the horse is not sampled due to the trainer's, owner's or their designee's assertion that the horse is not engaged in activities related to competing in horse racing in the State. This restriction does not apply if the trainer, owner, or their designee voluntarily allows an immediate collection of the samples from the horse.

MRC RULES

ATTENTION ALL HORSEMEN AND VETERINARIANS

This Advisory addresses concerns that have recently been expressed by horsemen and veterinarians regarding compliance with the uniform drug testing thresholds and guidelines for the use of Methylprednisolone Acetate (Depo-Medrol) and Procaine Penicillin. The regulators from the Mid-Atlantic racing states met on July 1, 2015 and announce the following Advisory.

METHYLPREDNISOLONE ACETATE (Depo-Medrol)

The testing threshold for methylprednisolone acetate (Depo-Medrol) is 100 pg/ml plasma. This testing threshold is based upon the administration of a total dose of 100 mg methylprednisolone as methylprednisolone acetate in one articular space. The recommended withdrawal time for this administration is a minimum of at least 21 days, but there is a footnote warning that intramuscular (IM) administrations can result in plasma concentrations that can exceed the testing threshold for weeks or months. It is important to understand that the testing threshold can be exceeded if there is: 1) an IM injection; 2) an injection in more than one articular space, 3) a different formulation (e.g., compounded) of methylprednisolone, and 4) an injection into a subcutaneous space, i.e. not injecting into the right spot. This is of particular concern when injecting stifles and hocks, as a portion of the medication often is inadvertently deposited into tissues outside the joint capsule. It is important to understand that when a portion of this drug is placed outside the joint capsule of any joint, an intramuscular or subcutaneous injection will be the result.

will test below the testing threshold of 100 pg/ml plasma. The testing threshold of 100 pg/ml plasma will be enforced.

PROCAINE PENICILLIN

The current Guideline for Procaine penicillin requires the reporting of the administration of this drug to the Racing Commission and a mandatory surveillance of the horse for 6 hours prior to the race if the trainer wishes to race the horse. The purpose of the quarantine is to ensure against a nerve block. The Guideline, however, does not specify how long after administration of procaine penicillin the reporting and mandatory surveillance requirements must be followed.

Effective immediately, only Procaine Penicillin administrations within 30 days of a race need be reported to the Racing Commission. The surveillance requirement remains in effect. The Racing Commission or the racetrack, as the case may be, will provide a security guard for the horse at the owner/trainer's expense. Please note that the testing threshold for Procaine Penicillin is 25 ng/ml plasma regardless of the surveillance requirement and this testing threshold will be enforced.

Accordingly, it is recommended that 1) Depo-Medrol should not be administered to any horse a trainer wishes to race in the Mid-Atlantic region – New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia and Virginia; and 2) a trainer who chooses to race a horse that has been treated with Depo-Medrol despite this warning should, at his/her expense, get the horse tested prior to entry to ensure that the horse
